

5 Source of Research Funding (if any):

6 Participants

Describe the participant sample who will be contacted for the project and how many participants are you planning to recruit (e.g. 15-25 adult Welsh-English bilinguals).

Potential Offense/Distress to Participants. Is there a possibility that participants will become distressed or offended as a result of your research? If so, how do you plan to mitigate their distress or offense? Justify why this offense or distress is necessary for your research.
<b>Note:</b> You must state that all participants have the right to withdraw at any point.
Payments. In this section please specify if the participants/investigators are being paid and if so, state the payment source.

## 7 Research Tools

Describe in detail the research tools that will be used to elicit data from the sample (e.g. tests, questionnaires, interviews, observation).

**Note:** You should submit a copy of all tool(s) you intend to use (e.g. questionnaire/s) - where practical with this completed form, and/or links to any online forms used. Non-

8b If the data is accessible to anyone else, describe who will have access to the data (and why).
<b>Note:</b> 5''fYgYUfW`XUhU`g\ci`X`VY`ghc fYX`cb`h\Y`I`b]j`Yfg]hm`IA`Ð drive and or suitably encrypted laptop (if necessary please consult with IT support)

## 9 Data publication

Explain by what method it is expected that the data will be published - e.g. journal article, report for a public body - or whether it is intended to be used solely for a Bangor University assignment (e.g. dissertation).
<b>Note:</b> Participants should be made aware of how the data will be managed and published. The information should be stated on the consent form.

## 10 Research location

Has written agreement been given by the appropriate person/body on the non-BU site for the research to be conducted?	Yes		No	
<p style="text-align: center;"><b>Note:</b></p> <p style="text-align: center;">Research on sites other than Bangor University may NOT be started until evidence of written agreement has been provided.</p>				

## 11 Ethical considerations
