

What is Assistive Technology

Assistive technology is **any device or software that aids you** in your studying.

Assistive Technology is not designed to put a student at an advantage above other students but to **level the playing field**.

First of all, a brief note about **Indexing**:

Indexing

Indexing is a method of organising recordings of lectures, meetings or seminars. They are **like bookmarks** helping you to sync up your notes with the recording.

Different devices have different methods of indexing.
